SIGN MATT

Designed by Piergiorgio Cazzaniga

INDOOR/OUTDOOR

Sign by Piergiorgio Cazzaniga, with its sinuous and ergonomic lines, is a chair and armchair project, representing a turning point for MDF Italia collection since 2006. In 2017, the collection was renewed with Sign Filo and Sign Matt: the latter represents the natural development of the original model, always coming both as a chair and comfortable armchair.

Thanks to its matt finish, available in three different shades, it can be inserted harmoniously in every environment, both indoor and outdoor. Its unique and original shape stands out in outdoor spaces such as gardens, terraces, parks, porticoes, beaches.

The plus of Sign Matt

- . An unmistakable iconic line
- . Fit for indoor and outdoor spaces
- . Available as a chair and as an armchair
- . Three different colours.

STRUCTURE

The single-material load-bearing structure is in polyethylene (PE)*, moulded with rotational moulding technology. Only white, the purest and most delicate colour, is made with a particular mixture called EASY CLEAN. A specific additive added to the initial plastic material facilitates the cleaning and the maintenance phases. *The material (PE) can present some impurities internally, due to particular production treatments, which are included in the accepted quality standards.

OUTDOOR USE

The particular resistance of polyethylene and its simple maintenance make Sign Matt perfect both indoors and outdoors. A version with a dripping hole is available for both the chair and the armchair. The hole cap is in white for the white and cement finishes, in black for the mud finish.

Finishing

The number in the dot corresponds to the number of colour/material finish.

Here below, in the section FINISH OPTIONS, please note all the colours of the materials used for this product.
