

Cosy Island

Designer	Francesco Rota
Year	2022-2024

The Cosy Island sofa, designed by Francesco Rota, stands out for its exceptional compositional freedom, elegantly adapting to contemporary domestic spaces. Its variety of modules allows for customised configurations: from central islands suited to large open-plan interiors to linear and corner arrangements for more compact rooms.

The Cosy Island sofa can be combined with the curved modules of Cosy Curve and the corner modules of Cosy Oblique to add dynamism and flexibility to every configuration. With a broad selection of fabrics and finishes, Cosy Island seamlessly integrates into any living space, transforming it into a welcoming and refined setting.

Frame

Bearing frame made of solid and multilayer wood, base with elastic belts, feet and concealed hook system.

Padding in variable-density foam polyurethane padding and polyester wadding cover.

Light armrest

Fully upholstered, removable cover.

Consisting of a plywood poplar wood panel, padded with single-density polyurethane foam, covered with polyester wadding.
