

Le Banc

Designer	Xavier Lust
Year	2022

Designed by Xavier Lust in 2001, Le Banc is a bench made from curved aluminum of just 6 mm thick. A lightweight and ultra-thin icon, characterised by the continuity of the sign, Le Banc is suitable for public spaces and private residences, both indoor and outdoor. Within the MDF Italia collection, it is available in 3 finishes and 3 different lengths. For The Principle of Lightness collection, Le Banc is reintroduced with a hand polished aluminum finish, in a 170 cm length.

Frame

6 mm thick curved aluminium, with a hand-polished aluminium finish.
Dimension: 170 cm.
