Le Cupole

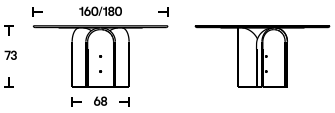

Year	2025
Designer	Francesco Meda, David Lopez Quincoces

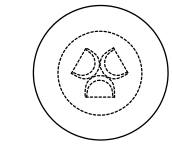

A perfect synthesis of material and form. Designed by Francesco Meda and David Lopez Quincoces, Le Cupole table is a tribute to geometric purity and sculptural elegance. The curved surfaces and soft lines of the domes enhance its sense of symmetry and dynamism, while the sophistication of the details emerges in the rounded shapes and brass inserts that enrich the design. Le Cupole is available in a round version, with three bases supporting the top, or with a lenticular top, offered in lengths of 250 and 300 cm and supported by four domes. The collection comes in a monomaterial marble version, or with bases in gunmetal-painted or lacquered aluminium, paired with marble or glossy lacquered tops.

Finishes

The table consists of a base made up of three or four domes in marble or aluminium:
_ marble bases carved from solid blocks, with a polished finish and joined together using a spacer and brass screws.
_ aluminium bases produced by sand casting, in matt or glossy coated finishes, and joined together using a spacer and brass screws.

The top, in marble with a matt polyester finish or in mediumdensity wood fibre with a glossy lacquered finish, is attached to the base by means of a steel plate coated in matt black or matt white.

The top with ⌀180 diameter is available exclusively in the monomateric version.

Optional “Lazy Susan” rotating tray.
