Life

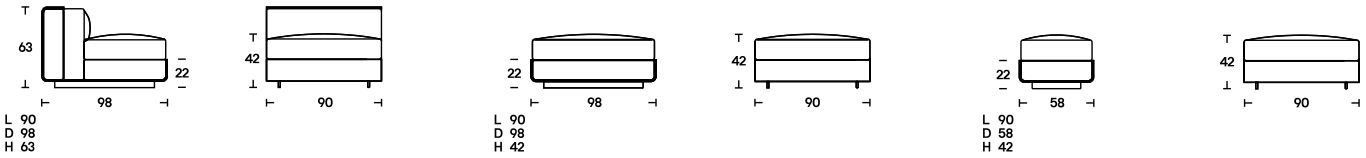

Year	1975 – 2020
Designer	Roberto Monsani

In envisioning new styles of living, Roberto Monsani imagined solutions to reshape the home, and the Life sofa — so avant-garde it was never produced in series in Monsani's day — retains its modern edge. Maintaining its modular and flexible design, today the sofa's original lucite frame has been elongated and updated with versions in dark stained walnut and black ash for contemporary living ideals. Designed to invite casual lounging, the supremely comfortable down cushions are now rendered ever more inviting in velvet, with softened shapes for absolute ease.
