

M1

Designer	Piergiorgio Cazzaniga
Year	2003-2019

The pure and essential lines of MDF Italia find expression in practical, multifunctional elegance with M1, designed by Piergiorgio Cazzaniga. A recyclable and stackable chair, designed to deliver maximum functionality in any space. Available with a plastic shell, painted or upholstered in over 400 fabric and leather options, M1 features a stainless steel base, offered in chrome or tone-on-tone painted finishes.

M1 comes in a wide range of colours to suit various settings: from domestic spaces such as kitchens, living rooms, and bedrooms, to contract environments like offices and conference rooms, and even public venues as bars and restaurants. Its silhouette integrates seamlessly into both indoor and outdoor spaces, showcasing the versatility that made it a key element in numerous projects.

Shell

Partially recycled linear polypropylene, mass pigmented in matt white or matt painted. Fully recyclable.

Upholstery kit

Upholstery kit, padded in polyurethane, with removable fabric or leather cover.

Base

In 304 stainless steel, chrome-plated, or powder-coated steel in a matt finish.
