

Mia

Designer	Francesco Bettoni
Year	2014-2016

Elegant in proportion, comfortable, and with a minimalist aesthetic, the Mia sofa stands out for its soft and inviting design. Its compact dimensions make it suitable for any setting, without ever compromising on comfort. The extra-thick decorative trim, either matching or in contrast with the upholstery, lends the sofa a refined and versatile presence, ideal for both residential and contract spaces.

The collection, which also includes armchairs and poufs, offers three configurations for the sofa, along with extensive customisation options. A wide selection of fabrics allows it to adapt to various stylistic needs.

Frame

The supporting structure is made of solid wood and plywood with a base equipped with elastic belts; the filling is in variable density polyurethane foam, and the cover in polyester padding. The armchair is available either in a fixed version or in a 360° returning swivel base.

Cover

Fabric or leather, removable cover.

Trim in a contrast colour

Extra-thick decorative trim which emphasizes its sinuosity by tracing its edges and intersections. The trim can be in the same tone of the cover, or in a contrast colour - Londra fabric.
