Minima room divider

Designer	Bruno Fattorini, Robin Rizzini
Year	2013-2023

Minima room divider is a full-height architectural solution that, even when positioned at the centre of a room, creates visually lightweight partitions capable of organising space. Its modular structure and essential design ensure a harmonious integration within the environment. The system can reach up to 3 metres in height and extend beyond 7 metres in horizontal length, with a maximum configuration of six columns. The compositional flexibility is further enhanced by the option to integrate storage modules and open compartments, elements that modulate the rhythm of the composition and help define the function of each space.

Uprights and shelves
Frames and shelves made of extruded aluminium matt painted and assembled using a concealed joining system. Aluminium frame with a 1.5x1.5 cm section and shelf thickness of 1.5 cm. End frames are equipped with an extruded aluminium pressure cap.

Cabinets Basic. Rop-leaf door/Drawers
L60/L90 D33 H35 cm, freely resting on the structure. Medium-density wood fibreboard with variable thickness, available in a matt lacquered or wood veneer finish.
- Flap door: door equipped with downward compass opening, with retractable mechanism with a stainless-steel cable, shock-absorbing system, adjustable in intensity and strength in the closing and opening phases.
- Drawers: double drawer equipped with push-pull opening system, with totally-extractable guides.

Cabinets Basic. Open
L30 D33 H35 cm, freely resting on the structure. 8 mm thick medium-density wood fibreboard, with a matt lacquered finish.

Cabinets Extra. Rop-leaf door/Drawers
L60/90/120 D33 H35 cm, freely resting on the structure. Made from melamine-faced fibreboard panels in grey (similar to RAL 7012). The interior of the unit is always grey, while the outside of the back panel is available in a lacquered finish to match the shelving structure.
- Cabinets with flap opening door: door with an innovative pantograph opening and closing mechanism, completely concealed inside the side panels, for extreme ease of opening.

The door consists of a matt powder-coated aluminium frame. The rear of the door is a 4 mm thick wood fibreboard panel laminated in grey (similar to RAL 7012). Available in a grooved Cimento® panel, matching the colour of the storage unit structure.
- Drawers: double drawer fitted with push-pull opening system and full-extension concealed slides. The drawer front is a panel faced with grey with an epoxy powder-coated aluminium frame in varius colours that houses the relative finishing panels, available in: grooved Cimento® panel, matching the colour of the storage unit structure.

Notes for the assembly and feasibility
- Available in six heights: 250 / 260 / 270 / 280 / 290 / 300 cm; max. 6 columns.
- Other heights available upon request: 230 / 240 / 310 / 320 cm.
- The first shelf is set at a variable height, depending on the composition.
- The frames are equipped with a fixing pin for adjustments.
- Inner height of compartments is always 35 cm. Depth 33 cm.

Minima room divider finishes
