Offset

Designer	Francesco Meda, David Lopez Quincoces
Year	2022-2023

"This design aims to draw attention to the value of its materials and structural solutions, as well as the beauty these generate." – Francesco Meda and David Lopez Quincoces.
The Offset table, designed by the Meda-Quincoces duo, finds its poetic essence in minimalism. A system of tables available in six sizes for outdoor, in which pure material is the protagonist. The structure, in brushed anodised or matt lead black painted aluminium, supports a top in natural satin aluminium or in glass-glazed ceramic in delicate shades of sage green, brick red, and stone grey.

Frame
Perimetral structure and legs (Ø40 mm) in extruded aluminium, matt painted or brushed anodized aluminium finish. Legs, with internal steel structural tie-rod only for lengths over 260 cm.
100% recyclable.

Reconstructed stone top
Recessed top, 9 mm thick, consisting of sandblasted and tempered glass slats with a spatulated reconstructed stone finish. The textured finish is obtained from a blend of mineral powders that have been micronised and mixed with liquid acrylic and water-based products. It is manually applied with a palette knife across the entire surface, with a material thickness of approximately 1.5 mm.
Note: visual irregularities, nuances, a lack of uniformity of both surface and material colour are deemed traits of value and uniqueness.

Accessories
Protective rain cover in light grey colour, specifically for outdoor products, waterproof, made of 100% polyester, outside with acrylic coating, inside with acrylic resin coating. Its characteristics are emphasised by its fully fungicidal Teflon finish.
Each rain cover comes with a closable slip cover, so that it can be folded and kept correctly when not in use.
