Pat Stool

Designer	Jean Marie Massaud
Year	2026

The Pat collection reinterprets the archetypal forms of seating in a contemporary key, combining formal rigour, comfort and versatility of use. The stool version, available in two heights, integrates with balance into a variety of residential settings, from kitchen areas to convivial spaces, offering an elegant and functional solution.
Fully upholstered in fabric or leather, Pat Stool is defined by its slender profile and tapered legs, distinctive features of the collection that give the stool a light, measured presence. Concealed zips preserve the purity of the design, while the satin aluminium footrest introduces a refined technical detail, ensuring greater comfort during use.

Structure
Made of steel rod padded with polyurethane foam. The stool is fitted with a satin-finished aluminium footrest.

Cover
Upholstery finished with concealed zips that preserve the purity of the design language.
Fabric or leather, not removable cover.
